the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.

23. (renumbered – formerly originally claim 34): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of and having a volume in the range of the following:

hydrochloric acid, 0-20.0%;
citric acid, 0-1.5%;
glycolic acid, 0-15%;
phosphoric acid, 0-4%;
triethylene glycol, 0-1.0%; and
water as the balance.

24. (renumbered – formerly originally claim 35): The composition of claim 23 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.

25. (renumbered – formerly originally claim 36): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of and having a volume in the range of the following:

sulfamic acid, 0-20%;
hydrochloric acid, 0-20.0%;
